

North St. Louis Small Business & Non-Profit Grant Program April 9, 2024 Update to Applicants

On April 9, 2024, SLDC extended a last chance offer for applicants to schedule a mandatory 1:1 review of their application and required documents. On March 1, all applicants received an email with an update on the application process including notification of the document deadline of April 15th and a link to schedule a mandatory 1:1 file review session. Between March 6 and April 5, SLDC's Grant Staff has conducted in-person 1:1 sessions with more than 580 businesses and non-profits. As of April 9, there were approximately 160 applicants who had not scheduled a mandatory 1:1 file review session. To accommodate these applicants, SLDC is offering a final opportunity to schedule a session at the Northside Economic Empowerment Center (NEEC) on Thursday, April 11 or Friday, April 12. If applicants do not take advantage of this opportunity and their application is missing required information or documentation, it will move forward in the process as incomplete, which may negatively impact their score and ability to qualify for funding.

Applicants are encouraged to check their email for the last chance invitation to schedule a 1:1 session. If you have applied for the North St. Louis Small Business & Non-Profit Grant Program and have NOT participated in a 1:1 file review session, please click the link below to schedule one now.
